## EDUCATION

National Institute of Technology Hamirpur

Btech (Civil Engineering)

Cgpa-8.72

Shri Oswal Jain Sr. Sec. School, Alwar

Class 12th- 92%

Class 10th- 84.33%

Hamirpur, Himachal Pradesh

2023-2027

ROLL NO. :- 23BCE033

Alwar, Rajasthan (301001)

2022

2020

## PROFESSIONAL SUMMARY

Full Stack Developer skilled in building dynamic web applications using Next.js, React.js, and Node.js. Proficient in AI tools, database management, and modern authentication systems. Creator of Genix, a website generator with chat integration. Passionate about problem-solving, AI integration, and delivering impactful tech solutions.

## TECHNICAL SKILLS

- **Programming Languages:**  
JavaScript, TypeScript, Java, Python, C++, C, HTML, CSS
- **Web Development:**  
React.js, Next.js, Node.js, Express.js, Tailwind CSS, shadcn/ui, Acertainty UI
- **Databases:**  
MongoDB, Convex, Supabase, PostgreSQL, SQL, Prisma
- **Libraries & Tools:**  
Quill, Highlight.js, Monaco Editor, Clerk Authentication, Kinde Authentication, ChatGPT API, Gemini API, etc.
- **Authentication:**  
OAuth with Google, GitHub, Facebook APIs
- **Other Skills:**  
DSA (100+ problems on LeetCode using Java), AI Prompt Engineering, DigiLocker Integration, Canva, MsWord, PPT creation

## PROJECTS

1. **Electrothon Collaboration Project** *Full-Stack Developer* | [GitHub](#)
  - Currently participating in **Electrothon 2024**, collaborating on a full-stack project using **Next.js, React.js, TypeScript, and Node.js**.
  - Focus on building scalable, responsive web applications with modern authentication and AI features.
  - Handling backend logic, API integration, and database management
2. **Genix** *Full-Stack Developer* | [Live Link](#) | [GitHub](#)
  - Developed and hosted **Genix**, a platform that allows users to generate fully functional websites with integrated chat features.
  - Integrated library Sand Box
  - Implemented authentication using Google, GitHub APIs
  - Managed data with **Convex** database management and ORM.
  - Integrated AI tools like **ChatGPT** and **Gemini** for dynamic content generation.

## SKILL APPLICATIONS

- Developed a **collaborative web application** leveraging **Next.js, convex database, Quill, Highlight.js, Monaco** and **Gemini** during Electrothon 2025

## ACHIEVEMENTS

---

- Solved 100+ DSA problems on LeetCode (JavaScript).
- Hosted and launched Genix, a website that builds websites with chat features.
- Participated in Electrothon 2025 with a collaborative project.
- Integrated modern authentication methods (Google, GitHub, Facebook) via APIs.
- Expertise in AI-powered applications using ChatGPT and Gemini.

## Positions of Responsibility

---

- Any leadership roles
- Club involvement
- Volunteering, event organizing, etc.

## Interests

---

- Explore new libraries
- Drawing
- Playing Hockey & Cricket
- Tracking
